A BENEFIT FOR

Advocacy  
Center  
for crime victims and children

# CHANGE STARTS WITH YOU!

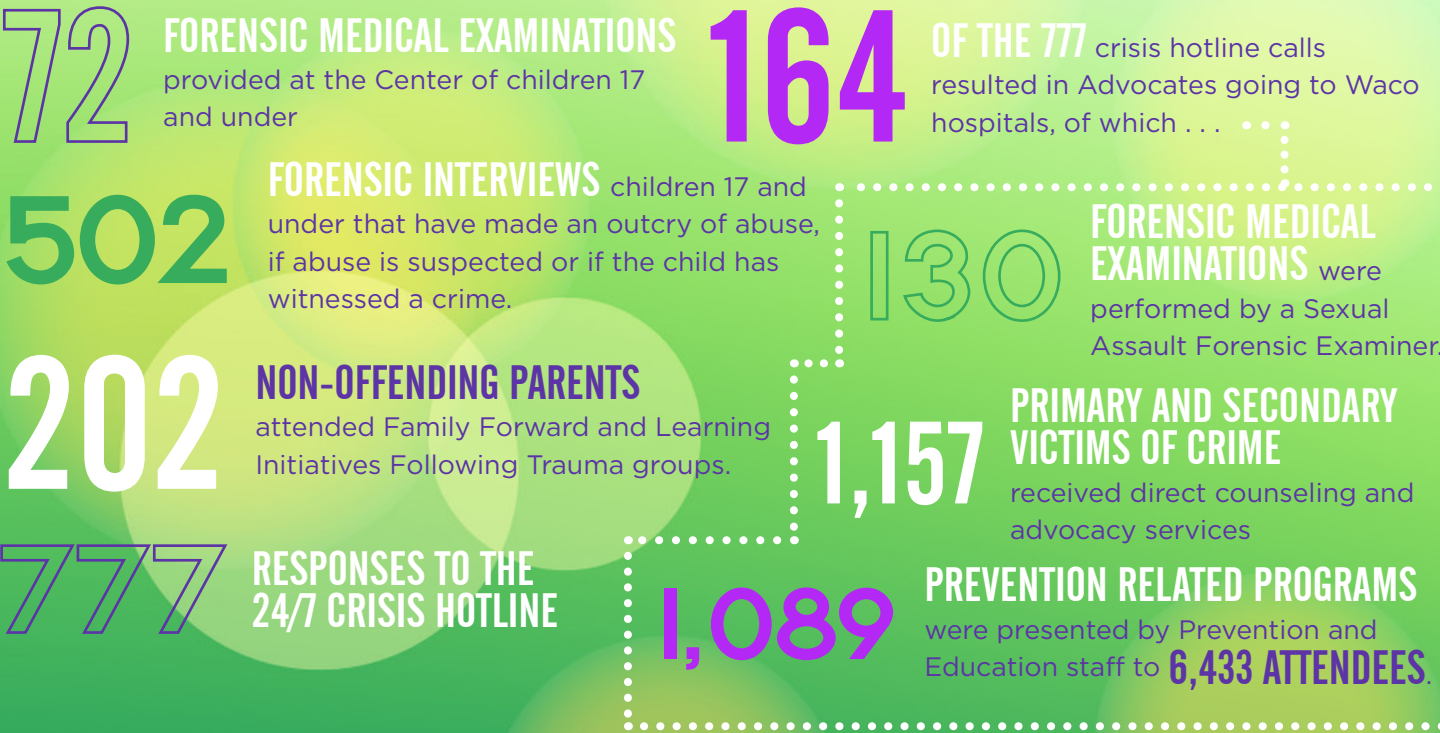

Advocacy Center for Crime Victims and Children (ACCVC) serves all victims of crime in McLennan, Bosque, Falls, Freestone, Hill and Limestone Counties. Our mission is to promote healing of children and crime victims through culturally sensitive advocacy, collaboration, prevention and treatment, and all of our services are free. We have satellite offices in Hillsboro, Mexia, Fairfield and Marlin, where we are able to provide all the services offered at our main office in Waco except for the medical component.

Our Victims Center provides case management, long-term counseling and a 24/7 crisis hotline with trained Advocates to answer the hotline after regular business hours. These Advocates also go to the Waco hospitals when there is a sexual assault exam and stay with that survivor during the entire process. ACCVC hosts the Sexual Assault Forensic Examiner program. These are specially trained nurses that perform the sexual assault exams at the hospitals.

The Children’s Advocacy Center provides forensic interviews of children 17 and under that have made an outcry of abuse, if abuse is suspected, or if they have witnessed a violent crime. Our Medical Adviser performs medical exams of children in the Waco office. Multi-Disciplinary Teams made of law enforcement, district attorneys, CPS, mental and medical professionals meet weekly in Waco and monthly in the outlying counties to review these children’s cases so that every effort is made to insure every child receives every service they need and no child falls through the cracks. The Waco Police Department’s Crimes Against Children unit is housed with the Waco office. This model of care is beneficial to the investigation and prosecution of child abuse cases.

The Prevention and Education Team works daily in area schools and other youth-based organizations to prevent sexual violence from occurring. Our goal is to see meaningful change in the attitudes, beliefs and behaviors that could lead to the perpetration of sexual violence. Our programming seeks to help youth develop socially and personally by facilitating discussions and activities on topics that encourage non-academic development such as empathy, respect, healthy relationships, emotions, and conflict resolution.
